ADVENTURE · FUN · LEARN

The UBC Challenge Ropes Course, operating in partnership between The University of British Columbia and Pacific Adventure Learning (PAL), offers a wide range of economically priced, adventurous and fun educational experiences.

THE LOW COURSE

Action activity stations that challenge and engage participants: storm *The UpNOver*, traverse *The Acid River* or navigate *The Spider's Web*.

THE HIGH COURSE

Fun and unique initiatives such as *The Super Swing*, *The Indiana Jones Bridge*, and *The Trapeze Jump* are constructed among the trees at our forest facility where some participants may be high off the ground, safely belayed on climbing systems.

HOW SAFE IS IT?

Highly trained and certified PAL facilitators use the *Challenge by Choice* philosophy to ensure physical and emotional safety. Everyone—regardless of physical ability—can participate.

ON UBC CAMPUS

On campus catering and meeting facilities for groups ranging from 12 participants and up make it the perfect choice for youth and tour group operators, student leadership programs, corporate/organizational team development, school programs and summer camps and sports teams.
